Franklin Electric’s knowledgeable team can help you leverage our diverse product line to focus on pumping in large, non-pressurized, man-made or natural, open bodied water sources including the following:

- Lakes
- Ponds
- Rivers
- Creeks
- Water Gardens
- Water Features
- Cisterns
- Aerobic Aeration
- Wet Wells
- Dry Hydrants
DRIVES & PROTECTION

Designed for large or small applications, Franklin Electric offers innovative variable frequency drives and motor protection options that require minimal adjustments for simple installation and operation. Franklin provides a range of products to meet your specific needs for residential, commercial, and municipal water pumping systems.

PRODUCTS

Variable Frequency Drives
- SubDrive Connect
- SubDrive Utility
- MonoDrive Connect
- MonoDrive
- SubMonitor Connect
- Peppermint
- Peppermint Plus
- SubMonitor Connect Starter
- SmartSTART Pump Starter
- Standard Pump Soft Starters
- Standard Pump Soft Starter
- Economy Pump Starter
- Control Panel/Pump Starter

SURFACE PUMPS

Franklin Electric offers a wide range of surface pumps designed for applications from residential to commercial and industrial applications.

PRODUCTS

Jet Pumps
- Self-Priming Pumps
- Centrifugal Pumps
- Multi-Stage Pumps
- Booster Pumps
- Transfer Pumps
- Gas Engine Drive Pumps
- Magnetic Drive Pumps

LAKE AND POND MANAGEMENT APPLICATIONS

Water is utilized in many ways to accent and/or provide utility for properties and neighborhoods. The management of water can be complex, whether you’re managing for the property of a residential condo or a large commercial park with an aquatic park requiring filtration, a stormwater management system, or even your own private pond. Franklin Electric offers submersible pumps with capacities ranging from small-bodied units to large industrial and agricultural applications.

PRODUCTS

4" High Capacity Pumps
- 6" 4400 Submersible Radial Pumps
- 6" and 8" SR Series Submersible Turbine Pumps
- 6" SSR Series Submersible Turbine Pumps
- 5", 6", 8", 9" STS Series Submersible Turbine Pumps
- Non-Rotating Pumps
- Direct Drive Pumps
- Wet Rotor Pumps

EXPERIENCE FRANKLIN

Lake and pond management applications

Packaged Systems

Franklin Electric’s packaged systems offer increased value and convenience by combining motor, pump, and control, all in one package.

PRODUCTS

Inline 400 Booster
- SubDrive QuickPAK
- Aeration System
- Inline 1100 Constant Pressure System
- SolarPAKs

MOTORS & CONTROLS

Franklin Electric offers a complete line of submersible motors designed for pump applications. Franklin Electric’s submersible motors can be used as part of a submersible motor package system or used as an integral part of a submersible motor power system.

PRODUCTS

4" Submersible Motors
- 6" Submersible Motors
- 8" Submersible Motors

Solar

Using Franklin Electric’s quality components and innovative thinking, we have “harnessed the power of the sun” to provide a clean, energy-saving way of moving and pumping water.

PRODUCTS

SubDrive SolarPAK
- Photon™ SolarPAK
- Photon™ HR SolarPAK
